# <CODE PEAK 2021>

**Code Peak is a month-long programme conducted by Coding Club IIT Guwahati and NJACK IIT Patna that helps students understand the paradigm of Open Source contribution and gives them real-world software development experience. The event targets first-timers who wish to participate in Free and Open Source(FOSS) Contributions and the experienced developers who want to show their skills by contributing to real-world projects.**

**The programme follows a mentor-mentee format where we select mentors who bring their own projects to which the participants can contribute keeping the spirit of Open Source in mind. The main aim of the entire event is to lay a foundational base and promote the culture of Open Source in India and prepare them for potentially larger Open Source Events at a global level.**

>>>

# <Fastest Growing Winter of Code>

Previously known as NWOC, the event has reached 320+ universities and colleges and has witnessed the participation of over 3000+ students contributing to 100+ projects, making over 1800+ Pull Requests.

In the 2021 edition, we aim to take the event to greater heights with the combined efforts of IIT Guwahati and IIT Patna, by reaching an unprecedented number of students with a varied diversity in projects and promoting the spirit of development and Open Source to college students all over the nation.

# <EVENTS>

## <TALKS>

**Specialists from numerous fields present their insights about programming with contributors. Individuals get to recognize many inspiring tales from these specialists. also, members have the opportunity to interact and make clear their doubts on programming from the well-known personalities inside the area of programming.**

## <GIT & GITHUB WORKSHOP>

**WOC brings to you the "Advanced Git and GitHub Workshop" right from basics like installation and pushing-pulling to advanced tools like Branching, also included is a bonus section on the cool perks of GitHub! To give you some hands-on experience, we have tasks designed to get you the feel of how Open Source Events work.**

## <CODING PERIOD>

**Open Source contribution offers real-world software development experience. The event targets students who wish to participate in Free and Open Source(FOSS) Contributions and experienced developers who want to show their skills by contributing to real-world projects.The program follows a mentor-mentee format where we select mentors who bring their own projects to which the participants can contribute keeping the spirit of Open Source in mind.**
